FIELD OF ROSES

Message received by the Medium: ***João Nunes Maia***

Your world resembles a field of roses, receiving all the affection of Jesus and the Love of God.

We must sometimes interrupt our ordinary thoughts to meditate on the valuable opportunities we receive as a reward of life when we enter the fluids of the flesh.

For us, everything is a beneficent action. Everything surrounding us are blessings from the Creator, awakening us to more life.

The affection with which benefactors reward us when they announce our return begins in the spiritual world.

When we embrace and accept this journey of learning, we find kindness, attention, and support in our luggage.

All roads are flowery, even if our eyes see them as thorns. Deep down, they are flowers that educate and instruct. That is why we call the entry into the flesh a Field of Roses.

We live in painful situations on Earth, animating a body. But then we understand that our paths have been the most productive for the experience because from them, we have learned the richest lessons of Love and life for our tortured hearts. Today, we reap the fruits of what we have been able to do for those in despair in the face of struggles.

Nothing is lacking within us. We have all the valuable resources to help us efficiently in all the difficulties that arise on our paths. We are, therefore, prepared for the fight, and we must fight against our imperfections, transforming them into activities of Good, which always vibrate in our consciousness and make themselves visible to us in every part of our lives.

Wherever you are, my brother, you will find yourself on a Field of Roses, enjoying the perfume of Love, a fragrance that rekindles needy hearts.

Share in the caravan of fraternity, whose environment is the universe. Be a citizen of the world without limits.

Let us materialize Goodness in all aspects of our existence and ensure that Love does not lose the luminous path of our hearts, where the Christ of God must be born to show us happiness.

We reaffirm that the Earth is, therefore, a Field of Roses, with God's blessings showing themselves in the simplest things: from the drop of water to the oceans, from the periodic elements to the worlds that circulate in the creation of the Great Sovereign, from the first movements of isolated cells to the marvelous harmony of the human body, manifesting the rational and enlightened intelligence of the Gospel.

If you wish, you can feel and see everything in bloom wherever you go, inviting you to the heavenly banquet through the inarticulate words of the winds, the waters, the trees, the birds, the stars, and everything you can observe, as long as you have affection in your gestures and love in your heart.

Do not miss the opportunity, you who are animating a body. Embrace this Rose Ground as an offering of progress, and you will be blessed by the fruits you will reap, marking your life in correspondence with the seed you have sown in the depths of the soil.

May God and Jesus bless us all, wherever we are, beginning the practice of Good, if we have not yet done it, through Love and Charity, through Duty.
